FASHIONS

For us, not only does it keep us grounded but it also helps us keep a great balance! When it's time for a detox, we usually plan a hike or just hop on our motorbikes and drive somewhere where we rent a small hut with a hammock and spend all day reading. It's blissful!

If adventure has a final and all-embracing motive, it is surely this: we go out because it is our nature to go out, to climb mountains, and to paddle rivers, to fly to the planets and plunge into the depths of the oceans... When man ceases to do these things,

Growing up, I've always preferred beaches over mountains, however every time I am surrounded by hightop trees and towering boulders, it has such a powerful effect on me.

Whenever I am hiking in nature, I feel so much more connected to the world around me.

Earth and sky,
woods and fields,
lakes and rivers,
the mountain
and the sea, are
excellent school-
masters, and
teach some of us
more than what
we could learn
from books.

If you are faced with a mountain, you have several options. You can climb it and cross to the other side. You can go around it. You can dig under it. You can fly over it. You can blow it up. You can ignore it and pretend it's not there. You can turn around and go back the way you came. Or you can stay on the mountain and make it your home.

Growing up, I've always preferred beaches over mountains, however every time I am surrounded by high, rocky and towering boulders, it has such a powerful effect on me. Whenever I am hiking in nature, I feel so much more connected to the world around me!
