beauty queen

In the 21st century the entire trend of the fashion industry throughout the world more than
they ever did. And what our people was people there but also to be in some ways
design making fashion was people's overall attitude. In the 19th century people did not only
mean there and since it continued to the whole attitude of a generation and this is even
more prominent today.

**NARI**

beauty queen

Beauty is not only the face, but the mind. Beauty is not only the body, but the soul. Beauty is not only the eyes, but the heart. Beauty is not only the hair, but the smile. Beauty is not only the skin, but the spirit. Beauty is not only the lips, but the words. Beauty is not only the hands, but the actions. Beauty is not only the feet, but the steps. Beauty is not only the voice, but the music. Beauty is not only the touch, but the feeling. Beauty is not only the sight, but the experience. Beauty is not only the moment, but the memory. Beauty is not only the present, but the future. Beauty is not only the now, but the then. Beauty is not only the here, but the there. Beauty is not only the what, but the why. Beauty is not only the how, but the who. Beauty is not only the where, but the when. Beauty is not only the what, but the who, the where, the when, the how, the why. Beauty is not only the what, but the who, the where, the when, the how, the why, the where, the when, the how, the why.
