Fashion is not something that exists in dresses only. Fashion is in the sky, in the street. Fashion has to do with ideas, the way we live, what is happening.

## her STYLE

\*\*\*\*\*

Trends in fashion unify women and men around the world, yet they still allow people the ability to portray their own individual style at the same time. A period of time portrayed in a picture can be identified immediately just by the style of clothes the people are wearing, and this sums up just how powerful and all-encompassing fashion is. Fashion can change from one second to the next, but what never changes is the hold it has over society, and the role it plays in the modern world.

In the 21st century  
the style trends of the fashion industry dominate the world more than they ever did, and control not only  
the way people dress but also trends in home ware design, makeup fashion and people's core attitudes.  
In the 19th century power did not only mean flares and tunics, it summed up the whole attitude of a genera-  
tion, and this is even more prominent today.
